

Quick-Green™ 13-0-0

Metabolic Synergist and Organic Fertilizer

Quick-Green™ 13-0-0 is a unique blend of free L-Amino Acids which are derived entirely from blended plant proteins. Quick-Green™ 13-0-0 contains exceptionally high levels of the two key amino acids Glutamic Acid and Aspartic Acid. Quick-Green™:

- Is rapidly assimilated by the plant providing plant with water soluble nitrogen source essential for protein synthesis
- Enhances photosynthetic capacity increasing chlorophyll production
- Increases carbohydrate production (leaf) and promotes storage (stem base, roots, rhizomes, stolon)
- Provides increased resistance to abiotic stress and increases antioxidant levels
- Regulates stomatal function and promotes positive metabolic balance
- Increases foliar nutrition efficiencies and facilitates translocation of nutrients within leaf tissue
- Chelates macro and micronutrients by eliminating their electrical charge, improves fertilizer efficiencies
- Precursors to essential phytohormones - plant growth hormones such as indole acetic acid.
- Feeds beneficial soil microorganism, provides energy to drive anabolic metabolism

APPLICATION RATES:

For Residential Maintenance:
1.5 oz – 2.0 oz concentrate/1.5 – 2.0 gallons water per 1000 square feet. Apply every 4-8 weeks.

Stress reduction rates may be applied preventatively and or curatively.

Product is water soluble, however agitate thoroughly while adding product to tank and during application process.

Available In:

100 lbs

20 lbs
